--	--

**Precautions and Warnings**

- Instructions must be read prior to use.
- RiJe Cup is designed to use with thin, water-like liquids, or nectar thickened liquids. Carbonated beverages, or honey thickened liquids will render RiJe Cup ineffective for delivering an accurate dosage.
- Do not use RiJe Cup for boiling liquids in a microwave.
- Hold RiJe Cup upside down when opening.

**Parts: Fig. 1**

- A – Handles;
- B - Base with 2 O-Rings
- C – Upper Cup
- D – Lid with spout \*
- E – Adjusting Key, two scales: ml and tsp
- F – Rotatable Cap

**Assembly:**

RiJe Cup comes partly assembled: parts B, C, D, and F are complete.

To attach Handles A remove Lid D\* and Upper Cup C from Base B. To fully assemble RiJe Cup after washing, follow steps shown on Fig.2 through Fig.8.

Fig. 2 Attach Handles A to Base B.

Fig. 3 Insert Rotatable Cap F into a sleeve of Upper Cup C.

Fig. 4 Adjust desirable portion size: insert Adjusting Key E into sleeve of Upper Cup C and turn Rotatable Cap F. To achieve desired portion size, align scale line on Adjustable Key E with the edge of the sleeve.

Fig. 5 Fill liquid into Upper Cup C.

Fig. 6 Put Base B over Upper Cup C. Be sure that the sealing O-rings are in the grooves on Base B.

Fig. 7 To lock the cup turn Base B against Upper Cup C. Be sure that locks on Handles A fit underneath locks on Upper Cup C as shown.

Fig. 8 Place RiJe Cup in upright position. If required to use lid with spout, place Lid D\* over Upper Cup C.

Fig. 9 RiJe Cup delivers liquid portions in its upright position.

**Correct drinking options:**

Fig. 10 From an open cup.

Fig. 11 Through Lid D with spout\*

Fig. 12 Regular straw placed into open cup.

Fig. 13 Regular straw inserted through hole in Lid D\*.

**Incorrect drinking position:**

Fig. 14 Drinking from RiJe Cup through a straw in the cup's upright position will result in limited flow delivery instead of fixed dosage delivery.

When drinking, always slightly incline the cup to ensure accurate dosage.

After each sip, place the cup in an upright position (as shown on Fig. 9) to allow next portion to be allocated.

\* Only Model CL01 is available with Lid D with a spout.
